### **Trails under construction**

Professional mountain biker and trail consultant, Jay Hoots, test rides a portion of the downhill run near Boer Mnt. Rd. The adrenaline-pumping, five to 10 minute ride is a half-kilometre series of wall-rides, jumps, drops and berms. Hoots says the run is good enough to excite the world's best riders, and planned well enough for their moms to follow along the side. The thrill ride compliments 15km of world-class cross-country trails nearing completion in the area.
